

# Enterprise Performance Management Solution

**Oracle** is the leader in **Enterprise Performance Management (EPM)**, unifying *Performance Management* and *Business Intelligence (BI)*, supporting a broad range of strategic, financial and operational management processes. Oracle provides a complete and integrated system for managing and optimizing enterprise-wide performance. This allows your organization to achieve a state of management excellence - being smart, agile and aligned - which provides competitive advantage and leverages your operational investments.

- Smart—Enable advanced integration that improves agility and lowers costs of ownership
- Agile—Integrate information from your financial performance management, operational intelligence, and transactional applications
- Aligned—Drive pervasive intelligence across the enterprise by linking strategic, financial and operational management processes

## Benefits of Oracle EPM

- Oracle's EPM system delivers consistent visibility into *past, current, and future* business operations
- Oracle's performance management applications help you improve *transparency*, enhance *compliance*, and mitigate *business risk* through integrated process control and consistent planning, financial consolidations, reporting, and scorecarding
- Oracle Business Intelligence foundation gives line managers timely, accurate financial and operating results for *improved transparency, visibility, and decision-making*
- Oracle's BI applications give business managers a *single, accurate view* that provides them with *timely, meaningful insight* into *business performance* and *better alignment* with business goals
- Oracle's EPM system *increases user productivity* through a *common EPM workspace* that gives users role-based access to all elements of their enterprise performance management solution—performance management applications, BI applications, and BI tools.

**"Oracle BI and Performance Management software, which is integral to our performance management strategy, has successfully established strong operational control and management reporting foundations"**

- Mandeep Hansra  
Head of BI Strategy and Systems  
British Telecom Group Finance
